- Do not turn on your device if it is wet. If your device is already on, turn it off and remove the battery immediately (if the device will not turn off or you cannot remove the battery, leave it as-is). Then, dry the device with a towel and take it to a service centre.
- Liquids will change the colour of the label that indicates water damage inside the device. Water damage to your device can void your manufacturer's warranty.

Do not use or store your device in dusty, dirty areas Dust can cause your device to malfunction

Do not store your device on slopes

If your device falls, it can be damaged

Do not store your device in hot or cold areas. Use your device at Your device can explode if left inside a closed vehicle, as the inside

- temperature can reach up to 80 °C.

 Do not expose your device to direct sunlight for extended periods of
- time (such as on the dashboard of a car)
- Store the battery at 0 °C to 40 °C.

Do not store your device with such metal objects as coins, keys and necklaces

- Your device may become deformed or malfunction. If the battery terminals are in contact with metal objects, it may

Do not store your device near magnetic fields

- Your device may malfunction or the battery may discharge from exposure to magnetic fields. Magnetic stripe cards, including credit cards, phone cards
- ssbooks, and boarding passes, may be damaged by magnetic
- · Do not use carrying cases or accessories with magnetic closures or allow your device to come in contact with magnetic fields for extended periods of time

Do not store your device near or in heaters, microwaves, hot cooking equipment, or high pressure containers

- The battery may leak.
- · Your device may overheat and cause a fire

Warning: Prevent electric shock, fire, and explosion

Do not use damaged power cords or plugs, or loose electrical

Do not touch the power cord with wet hands, or disconnect the charger by pulling on the cord

Do not bend or damage the power cord

Safety precautions

Do not use your device while charging or touch your device with

Do not short-circuit the charger or the battery

Do not drop or cause an impact to the charger or the battery

Do not charge the battery with chargers that are not approved by

Do not use your device during a thunderstorm may malfunction and your risk of electric shock is increased.

Do not handle a damaged or leaking Lithium Ion (Li-Ion) battery For safe disposal of your Li-lon batteries, contact your nearest authorised service centre.

Handle and dispose of batteries and chargers with care

- Use only Samsung-approved batteries and chargers specifically designed for your device. Incompatible batteries and chargers can cause serious injuries or damage to your device
- Never dispose of batteries or devices in a fire. Follow all local regulations when disposing of used batteries or devices.
- Never place batteries or devices on or in heating devices, such as microwave ovens, stoves, or radiators. Batteries may explode when the property of the
- Never crush or puncture the battery. Avoid exposing the battery to high external pressure, which can lead to an internal short circuit and

Protect the device, batteries, and chargers from damage

- Avoid exposing your device and batteries to very cold or very hot temperatures
- Extreme temperatures can cause the deformation of the device and reduce the charging capacity and life of your device and batteries.
- Prevent batteries from contacting metal objects, as this can create a connection between the + and terminals of your batteries and lead to temporary or permanent battery damage.
- · Never use a damaged charger or battery

Caution: Follow all safety warnings and regulations when using your device in restricted areas

Turn off your device where prohibited

Comply with all regulations that restrict the use of a mobile device in a particular area.

Do not use your device near other electronic devices

Most electronic devices use radio frequency signals. Your device may interfere with other electronic devices.

Do not use your device near a pacemaker

- Avoid using your device within a 15 cm range of a pacemaker if possible, as your device can interfere with the pacemaker
- If you must use your device, keep at least 15 cm away from the
- To minimise the possible interference with a pacemaker, use your device on the opposite side of your body from the pacema

Do not use your device in a hospital or near medical equipment that can be interfered with by radio frequency

If you personally use any medical equipment, contact the manufacturer of the equipment to ensure the safety of your equipment from radio

Do not bite or suck on the device or the battery

Comply with all safety warnings and regulations regarding mobile device usage while operating a

While driving, safely operating the vehicle is your first responsibility. Never use your mobile device while driving, if it is prohibited by law. For your safety and the safety of others, practice good common sense and member the following tips

Use a hands-free device.

explosion or fire

When cleaning your device:

· Do not use chemicals or detergents.

Do not allow children to use your device

Get to know your device and its convenience features, such as speed dial and redial. These features help you reduce the time needed to place or receive calls on your mobile device.

Use caution when using the device while walking or moving

You can be injured or damage the device if you fall.

Do not paint or put stickers on your device

Do not disassemble, modify, or repair your device

· Wipe your device or charger with a towel or a rubber

Clean the terminals of the battery with a cotton ball or a towel.

Do not use the device if the screen is cracked or broken

the device to a Samsung Service Centre to have it repaired.

Avoid disturbing others when using the device in public

Always be aware of your surroundings to avoid injury to yourself or

Do not carry your device in your back pockets or around your waist

Any changes or modifications to your device can void your manufacturer's warranty. For service, take your device to a Samsung Service Centre.

Paint and stickers can clog moving parts and prevent proper operation. If you are allergic to paint or metal parts of the product, you may experience itching, eczema, or swelling of the skin. When this happens, stop using the product and consult your physician.

Broken glass or acrylic could cause injury to your hands and face. Take

Your device is not a toy. Do not allow children to play with it as they could hurt themselves and others, damage the device, or make calls that increase your charges.

Do not use the device for anything other than its intended use

· Do not disassemble or puncture the battery, as this can cause

Proper care and use of your mobile device

Humidity and all types of liquids may damage device parts or

Install mobile devices and equipment with caution · Ensure that any mobile devices or related equipment installed in

Position your device within easy reach. Be able to access your wireless device without removing your eyes from the road. If you receive an incoming call at an inconvenient time, let your voice mail

Let the person you are speaking with know you are driving. Suspend calls in heavy traffic or hazardous weather conditions. Rain, sleet, snow, ice, and heavy traffic can be hazardous.

Do not take notes or look up phone numbers. Jotting down a "to do" list or flipping through your address book takes attention away from your primary responsibility of driving safely.

 Dial sensibly and assess the traffic. Place calls when you are not nowing or before pulling into traffic. Try to plan calls when your car will be stationary. If you need to make a call, dial only a few numbers, check the road and your mirrors, then continue.

Do not engage in stressful or emotional conversations that may be distracting. Make people you are talking with aware you are driving and suspend conversations that have the potential to divert your attention from the road.

Use your device to call for help. Dial a local emergency number in

the case of fire, traffic accident, or medical emergencies.

Use your device to help others in emergencies. If you see an auto

accident, a crime in progress, or a serious emergency where lives

are in danger, call a local emergency number.

Call roadside assistance or a special, non-emergency assistance

number when necessary. If you see a broken-down vehicle posing

no serious hazard, a broken traffic signal, a minor traffic accident where no one appears injured, or a vehicle you know to be stolen,

answer it for you.

Keep your device dry

electronic circuits.

vour vehicle are securely mounted. Avoid placing your device and accessories near or in an air bag deployment area. Improperly installed wireless equipment can cause serious injury when air bags inflate rapidly.

Allow only qualified personnel to service your device

Allowing unqualified personnel to service your device may result in damage to your device and will void your manufacturer's warranty

Handle SIM cards or memory cards with care

- Do not remove a card while the device is transferring or accessing information, as this could result in loss of data and/or damage to the
- Protect cards from strong shocks, static electricity, and electrical noise from other devices
- Do not touch gold-coloured contacts or terminals with your fingers or metal objects. If dirty, wipe the card with a soft cloth.

Ensure access to emergency services Emergency calls from your device may not be possible in some areas

or circumstances. Before travelling in remote or undeveloped areas, plan an alternate method of contacting emergency services personnel

Keep your personal and important data safe

- While using your device, be sure to back up important data.
 Samsung is not responsible for data loss.
- · When disposing of your device, back up all data and then reset your device to prevent misuse of your personal inform

Do not distribute copyright-protected material

Do not distribute copyright-protected material that you have recorded to others without the permission of the content owners. Doing this may violate copyright laws. The manufacturer is not liable for any legal issues caused by the user's illegal use of copyrighted material.

Do not drop your device or cause impacts to your device The screen of your device may be damaged

- · If bent or deformed, your device may be damaged or parts may

If your device has a camera flash or light, do not use a flash close to the eyes of people or pets Using a flash close to the eyes may cause temporary loss of vision or

damage to the eyes.

Use caution when exposed to flashing lights

- While using your device, leave some lights on in the room and do not hold the screen too close to your eyes Seizures or blackouts can occur when you are exposed to flashing
- lights while watching videos or playing Flash-based games for extended periods. If you feel any discomfort, stop using the device

Reduce the risk of repetitive motion injuries

When you repetitively perform actions, such as pressing keys, drawing characters on a touch screen with your fingers, or playing games, you may experience occasional discomfort in your hands, neck, shoulders, or other parts of your body. When using your device for extended periods, hold the device with a relaxed grip, press the keys lightly, and take frequent breaks. If you continue to have discomfort during or after such use, stop use and see a physician.

Ensure maximum battery and charger life

- Avoid charging batteries for more than a week, as overcharging may shorten battery life.
- · Over time, unused batteries will discharge and must be recharged
- Disconnect chargers from power sources when not in use.

accessories or supplies that are not approved by Sa

· Use batteries only for their intended purposes

- Use manufacturer-approved batteries, chargers, accessories and supplies
- Using generic batteries or chargers may shorten the life of your device or cause the device to malfunction. Samsung cannot be responsible for the user's safety when using

This EEE is compliant with RoHS.

your local, free battery return system

Correct disposal of batteries in this product

(Applicable in the European Union and other European countries with separate battery return systems) This marking on the battery, manual or packaging indicates that the batteries in this product should not be disposed of with other household waste at the end of their working life. Where marked, the chemical symbols Hg, Cd or Pb indicate that the battery contains mercury, cadmium or lead above the reference levels in EC Directive 2006/66. If batteries are not properly disposed of, these substances can cause harm to human health or the environment. To protect natural resources and to promote material reuse, please

separate batteries from other types of waste and recycle them through

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercial wastes for

Specific Absorption Rate (SAR) certification information Your device conforms to European Union (EU) standards that limit

human exposure to radio frequency (RF) energy emitted by radio and telecommunications equipment. These standards prevent the sale of mobile devices that exceed a maximum exposure level (known as the Specific Absorption Rate, or SAR) of 2.0 W/kg.

During testing, the maximum SAR recorded for this model was 0.525 W/kg. In normal use, the actual SAR is likely to be much lower, as the device has been designed to emit only the RF energy necessary to transmit a signal to the nearest base station. By automatically emitting lower levels when possible, your device reduces your overall exposure to RF energy.

The Declaration of Conformity statement at the back of this manual

demonstrates your device's compliance with the European Radio & Terminal Telecommunications Equipment (R&TTE) directive. For more information about the SAR and related EU standards, visit the

- 3. Push the memory card in the memory card slot until it locks in place.
- 4. Close the cover to the memory card slot.

Instructional icons

Square brackets: phone keys; for example: [-] (represents the Power/End key)

Angled brackets: softkeys that control different functions at each screen; for example: <OK> (represents the **OK** softkey)

Turn your phone on or off

To turn your phone on,

- 1. Press and hold [-].
- Enter your PIN and press < OK > (if necessary).
- When the setup wizard opens, customise your phone as desired by following the screen.

If the battery remains fully discharged or removed from the device, the time and date will be reset.

To turn your phone off, repeat step 1 above.

Access menus

To access your phone's menus,

1. In Idle mode, press < Menu > to access Menu mode.

- 2. Use the Navigation key to scroll to a menu or option.
- 3. Press < Select>, < Save>, or the Confirm key to confirm the highlighted option.
- 4. Press <Back> to move up one level; Press [-0] to return to Idle mode.

- When you access a menu requiring the PIN2, you must enter the PIN2 supplied by the SIM card. For details, contact your service provider.
- Samsung is not responsible for any loss of passwords or private information or other damages caused by illegal software

Make a call

- 1. In Idle mode, enter an area code and a phone number.
- 2. Press [—] to dial the number.
- 3. To end the call, press [-].

Answer a call

- 1. When a call comes in, press [--].
- 2. To end the call, press [---].

Adjust the volume

To adjust the volume of the ringtone

- 1. In Menu mode, select **Settings** → **Sound profiles**.
- 2. Scroll to the profile you are using.

- 3. Press <Edit> → Volume
- 4. Scroll to Call alert.
- 5. Scroll left or right to adjust the volume level and press

To adjust the volume of voice during a call

While a call is in progress, press the Navigation key up or down to adjust the volume

In noisy environments, you may have difficulty hearing the calls while using the speakerphone feature. For better audio performance, use the normal phone mode

Change your ringtone

- 1. In Menu mode, select Settings → Sound profiles
- 2. Scroll to the profile you are using.

If you are using the silent profile, you are not allowed to change the ringtone

- Press <Edit> → Voice call ringtone.
- 4. Select a memory location (if necessary).
- 5. Select a ringtone

To switch to another profile, select it from the list.

Call a recently dialled number

- 1. In Idle mode, press [---] to display a list of recent
- 2. Scroll left or right to a call type.
- 3. Scroll up or down to a number or name.
- 4. Press the Confirm key to view details of the call or [-] to dial the number.

Use the smart home screen

The smart home screen allows you to access applications, contacts, and calendar events or view the clock from Idle mode.

When you are using the smart home screen, the Navigation key does not work as shortcuts.

To add items to the smart home screen

- 1. In Menu mode, select **Settings** → **Display** → **Smart** home.
- 2. Press < Edit>
- 3. Select the items to display on the smart home screen. For the shortcuts toolbar, you can add or delete the shortcuts as desired. Press < Options> → Edit shortcuts.
- 4. Press < Options > \rightarrow Save.
- 5. Press the Confirm key.

mode, select **Settings** → **Display** → **Smart home** and scroll left or right to a style you want.

- Depending on your region, you may be able to access an input mode for your specific language.
- Press [#] to change case or switch to Number mode
- Press [*] to switch to Symbol mode.
- Press and hold [X] to select an input mode or change the input language

T9 mode

- 1. Press the appropriate alphanumeric keys to enter an entire word.
- 2. When the word displays correctly, press [0] to insert a space. If the correct word does not display, press the Navigation key up or down to select an alternate word.

Press an appropriate alphanumeric key until the character you want appears on the display.

Press an appropriate alphanumeric key to enter a symbol.

- To delete characters one by one, press < Clear >. To delete characters quickly, press and hold <Clear>.
- To insert a space between characters, press [0]
- · To start a new line, press [0] three times. • To enter punctuation marks, press [1].

Add a new contact

The memory location to save new contacts may be preset depending on your service provider. To change the memory location, in Menu mode, select Contacts \rightarrow <Options> \rightarrow Settings \rightarrow Save new contact to \rightarrow a memory location

- 1. In Idle mode, enter a phone number and press <Options>.
- 2. Select Add to Contacts → Create contact → a memory location (if necessary).
- Select a number type (if necessary).
- 4. Enter contact information.
- 5. Press the Confirm key or press $\langle Options \rangle \rightarrow Save$ to add the contact to memor

Send and view messages

- 3. Enter your message text. See "Enter text." For sending as a text message, skip to step 5.
- Press < Options > → Add multimedia and add an item
- To view text or multimedia messages 1. In Menu mode, select $Messages \rightarrow Inbox$ 2. Select a text or multimedia message.

Make fake calls

You can simulate an incoming call when you want to get out of meetings or unwanted conversations

To activate the fake call feature

In Menu mode, select Settings \rightarrow Call \rightarrow Fake call \rightarrow Fake call hot key.

To make a fake call

- In Idle mode, press and hold the Navigation key down.
- · When the keys are locked, press the Navigation key down

Activate the mobile tracker

When someone inserts a new SIM card in your phone, the mobile tracker feature will automatically send the contact number to specified recipients to help you locate and recover your phone To activate the mobile tracker

- tracker. 2. Enter your password and press < OK >
- prompted to create and confirm a password
- 4. Select Recipients and press < Options> → Contacts

to open your contact list You can also enter a phone number including a country code (with +). Skip to step 6.

- Select contacts → <Add> 6. When you are finished setting the recipients, press the Confirm key to save the recipients
- 7. Scroll down and enter the sender's name
- 8. Press the Confirm key → < Accept>.

Activate and send an SOS message

In an emergency, you can send SOS messages to your family or friends for help

To activate the SOS message 1. In Menu mode, select **Messages** → **Settings** → **SOS**

- messages → Sending options. 2. Select Sending SOS to activate the SOS message
- 3. Select Recipients and press <Options> → Search to open your contact list. You can also enter a phone number including a country code (with +). Skip to step 6.
- Select Multiple → contacts → <Add>.
- 5. When you are finished setting the recipients, press the Confirm key to save the recipients. 6. Select Repeat and set the number of times to repeat
- the SOS message. 7. Press <Back> → <Yes>

To send an SOS message

1. With the kevs locked, press [--] four times to send an SOS message to preset numbers.

The phone switches to SOS mode and sends the preset

2. To exit SOS mode, press [---]

Use the camera

To capture photos

- 1. In Menu mode, select Camera to turn on the camera
- 2. Rotate the phone anti-clockwise to landscape view.
